You can find more details of the “wellness benefit” and “Treatment Sure” below. ▶▶

The benefits

Guaranteed worldwide (except the USA) lifetime protection with annual cover of USD 3,750,000 / HKD 30,000,000 and lifetime cover of USD 8,750,000 / HKD 70,000,000

PRUmyhealth prestige medical plan covers the eligible medical costs of your **private room** hospital treatment **worldwide (except the USA)**, from **initial consultation to recovery**, including:

hospital stay

surgery

rehabilitation

We protect you as the person covered by the plan (the “life assured”) up to an **annual limit of USD 3,750,000 / HKD 30,000,000 and a lifetime limit of USD 8,750,000 / HKD 70,000,000.**

Lifetime guaranteed renewal

The plan offers **protection for life**. Even if your medical history changes or there is a claim on the plan, the policyholder can **renew** the plan every year throughout your lifetime – **guaranteed**. We regularly review our premiums and we may adjust yours based on our premium rate when it is time to renew your plan.

You can find the details in the “Plan renewal / Premium structure” and “Changes to benefits” sections in the “More about the plan” section below.

In-depth protection against cancer

Non-surgical cancer treatments

Treating cancer effectively often needs more than just surgery, and the cost of supporting treatments can quickly add up. That’s why, as well as covering **surgical cancer treatments**, we cover **non-surgical cancer treatments** too, for example:

- Chemotherapy
- CyberKnife
- Gamma Knife
- Hormonal therapy
- Immunotherapy
- Proton therapy
- Radiotherapy
- Targeted therapy

Genetic testing prior to targeted therapy

Matching your treatments to the cancer and your own genetic make-up gives you a better chance of beating the disease. But the genetic testing that enables doctors to do this can be costly. We cover the expenses for **genetic tests prescribed for the use of specific targeted therapy drugs** for you.

Personalised cancer drugs

Cancer treatment is dynamic; there are constant breakthroughs – and doctors can switch to more advanced drugs when the first line of treatment has failed. We even cover **cancer drugs registered and launched overseas though not in Hong Kong; but recommended by your doctor in Hong Kong** and approved to be used solely for the purpose of cancer treatment received in Hong Kong.

Rehabilitation benefits for covered cancer, heart attack and stroke to help your recovery

Because it takes time to recover from cancer, heart attack and stroke, you will often need rehabilitation. That's why we offer extra help when you are diagnosed with these diseases.

Home facility enhancement

After treatment, you may want to recover in the comfortable and familiar surroundings of your home, with loved ones nearby. That's why we offer up to USD 6,250 / HKD 50,000 for each incident, to help cover the costs of adapting your home to help you live a normal life when recommended by a registered occupational therapist. Some of these could be:

- Clinical psychologist

If the worst happens...

Should the life assured unfortunately pass away, we will pay a **compassionate death benefit**. If the life assured sadly dies within 90 days from an accident, we will pay an **accidental death benefit on top of the compassionate death benefit**.

Tailor your plan with a range of annual deductibles plus Designated Supplementary Benefit

Whether you are looking for full cover of your eligible medical expenses or a plan to supplement your other medical plans, you can choose from **5 annual deductible options** to fit your budget and needs.

- **USD 0 / HKD 0**
- **USD 1,000 / HKD 8,000**
- **USD 3,125 / HKD 25,000**
- **USD 7,500 / HKD 60,000**
- **USD 12,000 / HKD 96,000**

The annual deductible is the fixed amount you pay for the eligible medical expenses in a policy year before your plan starts to pay for any benefit (except wellness benefit and Death Benefits). We **automatically re-set** your **annual deductible** at the policy anniversary in each policy year. This way, you can gear up your protection in preparation for your retirement **by reducing your deductible once in your lifetime**. You can do this at the policy anniversary which falls on, or immediately after, your 55th, 60th or 65th birthday. There is **no need for a medical examination**.

Make your plan work even better by **adding extra cover**. Based on your insurance needs, you can opt for our Designated Supplementary Benefit to bolster your **outpatient protection** by paying additional premiums.

Designated Supplementary Benefit	Coverage	Coverage area
Outpatient Benefit	<ul style="list-style-type: none"> • Outpatient consultation • Ancillary service • Psychiatric treatment • Laboratory tests and diagnostic imaging • Prescribed medicines and drugs • Health check-up and vaccination 	Worldwide coverage except the USA* * If you have an accident in the USA, we will cover the eligible medical costs you need there.

Plan renewal / Premium structure

We guarantee that you will be able to renew your plan at each policy anniversary subject to the premium rate, terms and conditions and Benefit Schedule that applies at that time. We guarantee this provided that **PRU**myhealth prestige medical plan is still made available to all policyholders already enrolled.

If we no longer offer **PRU**myhealth prestige medical plan to all policyholders already enrolled, we will endeavour to enrol the life assured in another available medical plan at that time without any new individual terms or personal exclusions.

Premium rates of **PRU**myhealth prestige medical plan and Outpatient Benefit are not guaranteed and are yearly adjustable based on the risk class (including but not limited to age, annual deductible, nationality and country of residence) and attained age of the life assured at the time of plan renewal. We will determine the relevant premium rates based on several factors, such as our claims and persistency experience, medical price inflation, projected future medical costs and any applicable changes in benefit.

Changes to benefits

We have the absolute right to revise all terms and conditions (including the Benefit Schedule and all other provisions) under this plan and the Designated Supplementary Benefit (if applicable) on each renewal by giving you 30 days' notice in writing.

The changes will apply automatically unless you tell us in writing that you want to cancel your plan within 30 days of the renewal date. If you do this, we will refund the premium you have paid since the renewal if you have not made (and do not make) any claims.

The changes will include but are not limited to alterations to all items shown in this plan's Benefit Schedule. The changes will reflect any past or foreseeable changes in medical practice and claims experience.

We will adjust the premium based on the rate we determine.

Limitations on room level choice

If the life assured stays in a higher category of room level than their entitled room level (i.e. a private room), we will pay only 25% of the relevant benefit. For example, if they stay in a room such as a suite, a deluxe room or a VIP room.

Limitations on treatments outside the coverage area

- For hospital stays, we will cover the eligible medical costs of staying in a private room in the plan's coverage area.
- If the life assured has an accident in the USA and needs medical services there, we will pay their eligible claim in line with the plan's Benefit Schedule, subject to its annual deductible.
- For hospitalisation, medical treatment and / or services performed in the USA not because of an accident, we will not pay any benefits.

Reasonable and customary charges

We will only cover charges or expenses which we believe are reasonable and customary. That means that they must be medically necessary (there are more details below) and do not exceed the general range of charges by service providers where the charge is incurred.

We may exercise our right to determine whether the charges for treatment, medical services and supplies are regarded as reasonable and customary charges with reference but not limited to a combination of our global experience and any relevant publication or information available, such as the schedule of fees published by the government, relevant authorities and recognised medical associations where the expense is incurred.

We may exercise our right to adjust any benefit payable in relation to any charges which are not reasonable and customary.

Medically necessary

A hospital stay, medical treatment and / or service is medically necessary if it is consistent with the diagnosis and customary medical treatment for the condition. The hospital stay, medical treatment and / or service should also conform to the standards of generally accepted medical practice and not just be for the convenience of the life assured, their relatives or the registered doctor.

In case of a hospital stay, the medical treatment and / or service should be performed on the basis of the medical symptoms or conditions of the life assured that cannot be safely provided without a hospital stay.

VAT and GST

Eligible expenses shall include the value-added taxes ("VAT") and goods and services taxes ("GST") (if any) charged or imposed on the expenses incurred for medical services.

Termination of this plan

We will terminate this plan when the first of these happens:

- the life assured dies; or
- you fail to pay your premium within 1 calendar month from its due date; or
- if this plan is a supplementary benefit, the basic plan to which this plan is attached expires, is cancelled or surrendered; or
- the aggregate benefits paid (except wellness benefit and Death Benefits) and payable under all in-force and terminated plans of **PRU**myhealth prestige medical plan and the Designated Supplementary Benefit (if applicable) covering the same life assured (regardless of where such policy(ies) were issued) reach the overall lifetime limit.

For more details on termination of this plan, please refer to the policy provisions.

Termination of Designated Supplementary Benefit

We will terminate your Designated Supplementary Benefit if your **PRU**myhealth prestige medical plan terminates.

Key risks

How may our credit risk affect your policy?

The guaranteed cash value (if applicable) and insurance benefit of your plan are subject to our credit risk. If we become insolvent, you may lose the value of your policy and its coverage.

How may currency exchange rate risk affect your benefits?

Foreign currency exchange rates may fluctuate. As a result, you may incur a substantial loss when you choose to convert your benefits to other currencies. Additionally, the conversion of your benefits to other currencies is subject to exchange restrictions applicable at the time when the benefits are paid. You have the sole responsibility to decide if you want to convert your benefits to other currencies.

How may inflation affect the value of your plan?

We expect the cost of living to rise in the future because of inflation. That means the insurance you take out today will not have the same buying power in the future (i.e., the benefit payouts might not be able to cover your future needs), even if the plan offers increasing benefit intended to offset inflation.

What happens if you do not pay your premiums?

You should only apply for this product if you intend to pay all of its premiums. If you miss any of your premium payments, we may terminate your policy and you would lose the policy's coverage.

Why may we adjust your premiums?

We have the right to review and adjust the plan's premium rates for particular risk classes on each policy anniversary, but not for any individual customer.

We may adjust premium rates because of several factors, such as our claims and persistency experience, medical price inflation, projected future medical costs and any applicable changes in benefit.

Why may we change your benefits?

We have the right to revise the Benefit Schedule and the terms and conditions under this plan on each renewal by giving you 30 days' notice in writing. This is to account for any known or foreseeable changes in medical practices and claims experiences. We will apply the revisions to all policies under the plan. The premium will be adjusted accordingly based on the rate as determined by us.

Important information

Suicide clause

If the life assured commits suicide whether sane or insane, within 1 year from the effective date of the policy or from the date of any reinstatement, whichever is later, we will limit all the death benefit to a refund of the premiums paid without interest. We will deduct any amounts we have already paid and any amounts you owe us under the policy.

Cancellation right

A customer who has bought the life insurance plans has a right to cancel the policy within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid less any withdrawals. Provided that no claim has been made, the customer may cancel the policy by giving written notice to us within 21 calendar days immediately following either the day of delivery of (1) the policy or (2) the notice (informing the availability of the policy and expiry date of the cooling-off period) to the customer or his / her nominated representative, whichever is earlier. Such notice must be signed by the customer and received directly by Prudential Hong Kong Limited at 8/F, Prudential Tower, The Gateway, Harbour City, 21 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong within the cooling-off period.

The premium and levy will be refunded in the currency of premium and levy payment at the time of application for this policy. If the currency of premium and levy payment is not the same as the plan currency, the refundable premium and levy amount in plan currency under this policy will be converted to the currency of premium and levy payment at the prevailing currency exchange rate as determined by us in our absolute discretion from time to time upon payment. After the cooling-off period expires, if a customer cancels the policy before the end of benefit term, the actual cash value (if applicable) may be substantially less than the total amount of premiums paid.
