I am pleased to present the 2024 Individual Life Claims Report on behalf of Prudential Hong Kong Limited. This report provides comprehensive statistics relating to claims made by our customers across three major claims categories: Death, Critical Illness and Hospitalisation. Additionally, the report includes an in-depth study on the main health concerns affecting us today, drawing on supplementary data and information to provide a reference for the public when assessing their own protection needs.

We serve more than 1.3 million customers in Hong Kong and processed over 137,000 claims in 2024. As one of the city's largest insurers, we believe we have a key role in narrowing the mortality protection gap by making health protection services more convenient and reliable. We fully understand that the claims process is a critical part of health protection. Therefore, when handling a large volume of claims, we emphasise actively listening to our customers, striving to protect and support their needs, and aim to be their guardian on their health journey.

We are dedicated to optimising operations and enhancing efficiency through innovative technology. In the realm of digital claims, we employ advanced technologies to ensure the accuracy of claims. This approach significantly accelerates the claims process, resulting in a more efficient and seamless customer experience. In 2024, the average processing time for critical illness and death claims decreased by approximately 32% year-on-year, providing customers with a more efficient and streamlined claims experience.

We are particularly honoured to have received claims service awards at both the "The Hong Kong Insurance Awards 2024" and "Bloomberg Businessweek Financial Institution Awards 2024". Such recognition is a testament to our ongoing efforts to enhance our claims process. We will continue to uphold our mission by providing simple and accessible financial and health solutions, "For Every Life, For Every Future."

In the rapidly evolving healthcare landscape, health topics have become increasingly paramount to the public. The growing prevalence of chronic diseases, coupled with rising healthcare costs, has heightened the need for comprehensive and accessible health insurance solutions. As a leading life insurance provider, we are committed to meeting the evolving needs of our customers by providing tailored health insurance plans and services that safeguard their well-being and to achieve medical freedom.

The demand for medical services in the Greater Bay Area is significant. Prudential received over 4,700 cross-border medical cases incurred in the Chinese Mainland in 2024, representing a 23% increase from nearly 3,800 cases in 2023. This surge in demand underscores the importance of enhancing medical integration between Hong Kong and the Greater Bay Area, and expanding our medical coverage to meet the growing healthcare needs of our customers in the region.

In line with the increasing integration between Hong Kong and the Greater Bay Area, we have expanded our hospital coverage in the Chinese Mainland to over 5,500 hospitals and more than 14,000 hospitals for the PremierFlex Medical Plan. With an aim to provide comprehensive support to care for individuals "from minor ailments to severe illnesses", we have also launched an exclusive "HealthCare+" eService Platform*, offering a range of dedicated value-added services. Additionally, we have introduced the Cross-Border Panel Cancer Treatment Service in the Greater Bay Area, partnering with renowned medical institutions such as the Hong Kong Integrated Oncology Centre, and the Zhongshan Chenxinghai Hospital of Integrated Traditional Chinese and Western Medicine. We also collaborate with the Shenzhen New Frontier United Family Hospital to provide a simpler and faster Medical Expenses Direct Billing Service. These initiatives offer our customers a wider range of options to access high-quality medical care and receive the necessary support they need during their health journeys.

To further enhance our service offerings, we have launched the PRUHealth Office - a dedicated WhatsApp and WeChat service that provides priority booking at Prudential's panel doctors and assists with pre-authorisation arrangements. This innovative platform leverages technology to streamline healthcare processes, making them more convenient and accessible for our customers.

We firmly believe that customer-centricity is the cornerstone of our business. This Individual Life Claims Report provides a comprehensive overview of our health and claims performance. The report includes valuable statistical data that sheds light on the healthcare concerns of our customers. By analysing these insights, we can continuously improve our products and services to better meet the evolving needs of our policyholders. Together, we strive to create a healthier and more secure future for our customers.

从确诊到治疗：客户的坚韧与保险的支持

From Diagnosis to Treatment: The Client's Resilience and Insurance Support

卢先生，一位44岁的客户，自2016年起参加了我们的医疗加倍保(PMP)计划。在2020年3月，他被诊断出患有第四期肺癌。由于健康问题和频繁的医院治疗，他的收入受到了严重影响。当我们收到卢先生的保险理赔时，我们迅速审查并批准了他的理赔，帮助他应对突如其来的巨额费用。

Mr. Lo, a 44-year-old who has been with us since 2016 under the PRUhealth Medical Plus (PMP) plan, faced a life-altering diagnosis of stage IV lung cancer in March 2020. When we received Mr. Lo's insurance claim, we acted swiftly to review and approve it, helping him manage the sudden and substantial expenses.

自2020年以来，卢先生不得不接受多次治疗，包括胸腔镜楔形切除术、胸腔引流和化疗，这需要频繁住院。即使到了2024年，他仍需定期住院接受持续治疗。在这四年中，除了重大疾病赔偿外，我们已经提供了近300万美元的医疗费用，这不仅减轻了卢先生因收入突然中断的压力，还让他免于担心高昂的治疗费用。在这样艰难的时期，他的坚韧和对我们服务的信任深深打动了我们。

Since 2020, Mr. Lo has had to endure multiple treatments, including thoracoscopic wedge resection, thoracic drainage, and chemotherapy, requiring frequent hospitalizations. Even in 2024, he continues to need regular hospital care for ongoing treatment. Over these four years, beyond the critical illness compensation, we have already provided nearly 3 million USD in medical expenses under his medical coverage. This support has not only alleviated the stress of sudden income loss for Mr. Lo but also spared him from the burden of high treatment costs. His resilience and trust in our services during such a challenging time deeply move us.

无论客户遇到何种情况，我们的理赔专员都将竭尽全力为客户提供支持和解决方案。

No matter what situation our customers encounter, our claims specialists will do their best to provide support and solutions for them.

充满同理心的理赔处理方法，为悲痛的家庭带来了极大的慰藉 A Compassionate Claims Settlement Brings Solace to a Grieving Family

方先生是我们自2013年以来的忠实客户，不幸于2024年6月因意外事故去世，年仅30岁。他留下了挚爱的父母和两个年幼的孩子。我们于2024年8月收到了他的理赔申请。由于他的死亡是由意外引起的，需要进行验尸以确认死因，这延长了死亡证明的发放时间。尽管如此，我们的理赔团队根据火化证明、医院证明和新闻报导，提前支付了部分死亡保险金（美金 200,000），余下的款项（美金50,000）将在收到死亡证明后发放。家人对理赔的灵活处理表示深深的感激和宽慰，这在他们极度悲痛的时刻带来了一丝安慰。

Mr. Fong, a loyal customer of ours since 2013, tragically lost his life in an accident in June 2024. At just 30 years old, he left behind his loving parents and two young children. His claim application was received in August 2024. Due to the nature of his passing, an autopsy was required to confirm the cause of death, lengthening the issuance of the death certificate. Despite this, our Claims team made a partial death benefit payment in the amount of USD 200,000 based on the cremation certificate, hospital certificate, and news report and the remaining payment in the amount of USD 50,000 would be released upon receipt of the death certificate. The family expressed profound gratitude and relief that the claim was approved with such flexibility, bringing a measure of comfort during their time of immense grief.

我们理解，处理理赔事宜可能是一个极其困难和压力重重的经历，尤其是在深切的丧失时期。我们的团队深知这一点，并致力于为客户提供灵活且高效的服务。我们非常感激能够在这个艰难的时刻支持方先生的家人，希望我们的努力能为他们带来一些安慰和宽慰。

We understand that dealing with claims can be an incredibly difficult and stressful experience, especially during times of profound loss. Our team is deeply committed to providing flexible and efficient service to our clients. We are truly grateful for the opportunity to support Mr. Fong's family during this challenging time, and we hope that our efforts have brought some comfort and relief to them.

我们的理赔团队终于聆听客户的需求，理解他们的困难，并提供必要的灵活性来支持他们度过最艰难的时刻。我们致力于提供富有同情心和同理心的服务，确保我们的客户在最需要的时候感受到关怀和支持。

Our claims team is always here to listen to the needs of our customers, understanding their difficulties and providing the necessary flexibility to support them during their most challenging times. We are dedicated to offering compassionate and empathetic service, ensuring that our customers feel cared for and supported when they need it the most.

陈先生的儿子，一名6岁的男孩，于2024年12月1日刚开始他的高端医疗自由行计划 (MCVIP)。不幸的是，仅仅两天后的2024年12月3日，他从1.5米高的单杠上滑倒，右肘著地。在紧急情况下，陈先生立即将儿子送往医院进行紧急会诊。X光显示右肘远端肱骨骨折，需要在第二天进行手术。医疗费用约为130,000港元。由于这是该家庭首次在香港处理索赔，陈先生对结果感到非常担忧。

Mr. Chan's son, a 6-year-old boy, had just started his PremierFlex Medical Plan (MCVIP) on 01 December 2024. In a state of emergency, Mr. Chan rushed his son to the hospital for an urgent consultation. The X-ray revealed a displaced fracture over the distal humerus, necessitating an operation the following day. The medical expenses amounted to approximately HKD130,000. As this was the family's first time processing a claim in Hong Kong, Mr. Chan was understandably anxious about the outcome.
