I am pleased to present the Individual Life Claims Report for the first half of 2024 on behalf of Prudential Hong Kong Limited. This report provides comprehensive statistics relating to claims made by our customers across three major claims categories: Death, Critical Illness and Hospitalisation. Additionally, the report includes an in-depth study on the main health concerns affecting us today, drawing on supplementary data and information to provide a reference for the public when assessing their own protection needs.

We serve more than 1.3 million customers in Hong Kong and processed over 66,000 claims in the first half of 2024. As one of the city's largest insurers, we believe we have a key role in narrowing the mortality protection gap by making health protection services more convenient and reliable. We fully understand that the claims process is a critical part of health protection. Therefore, when handling a large volume of claims, we emphasise actively listening to our customers, striving to protect and support their needs, and aim to be their guardian on their health journey.

According to our latest "Medical Freedom Survey", more than 80% of respondents in the Greater Bay Area believe that being able to easily manage their various medical expenses is a crucial aspect of "Medical Freedom". Therefore, we remain committed to enhancing the efficiency and convenience of the claims process. This offers our customers peace of mind when receiving treatment during an illness, free from the worry of medical costs, thereby facilitating their recovery and supporting them through difficult times.

We are particularly honoured to have received claims service awards at both the "Bloomberg Businessweek Financial Institution Awards 2024" and the "Metro Finance GBA Insurance Awards 2024 – HK & Macau." Such recognition is a testament to our ongoing efforts to enhance our claims process. We will continue to uphold our mission by providing simple and accessible financial and health solutions, "For Every Life, For Every Future."

In the rapidly evolving healthcare landscape, health topics have become increasingly paramount to the public. The growing prevalence of chronic diseases, coupled with rising healthcare costs, has heightened the need for comprehensive and accessible health insurance solutions. As a leading life insurance provider, we are committed to meeting the evolving needs of our customers by providing tailored health insurance plans and services that safeguard their well-being and to achieve medical freedom.

The demand for medical services in the Greater Bay Area is significant. Prudential received over 2,000 cross-border medical cases incurred in the Chinese Mainland in 2024 H1, representing a 17% increase from nearly 1,700 cases in 2023 H1. This surge in demand underscores the importance of enhancing medical integration between Hong Kong and the Greater Bay Area, and expanding our medical coverage to meet the growing healthcare needs of our customers in the region.

In line with the increasing integration between Hong Kong and the Greater Bay Area, we have expanded our hospital coverage in the Chinese Mainland to over 4,200 hospitals and more than 14,000 hospitals for the PremierFlex Medical Plan. With an aim to provide comprehensive support to care for individuals “from minor ailments to severe illnesses”, we have also launched an exclusive “HealthCare+” eService Platform*, offering a range of dedicated value-added services. Additionally, we have introduced the Cross-Border Panel Cancer Treatment Service in the Greater Bay Area, partnering with renowned medical institutions such as the Hong Kong Integrated Oncology Centre, and the Zhongshan Chenxinghai Hospital of Integrated Traditional Chinese and Western Medicine. We also collaborate with the Shenzhen New Frontier United Family Hospital to provide a simpler and faster Medical Expenses Direct Billing Service^. These initiatives offer our customers a wider range of options to access high-quality medical care and receive the necessary support they need during their health journeys.

To further enhance our service offerings, we have launched the PRUHealth Office - a dedicated WhatsApp service that provides priority booking at Prudential's panel doctors and assists with pre-authorisation arrangements. This innovative platform leverages technology to streamline healthcare processes, making them more convenient and accessible for our customers.

We firmly believe that customer-centricity is the cornerstone of our business. This Individual Life Claims Report provides a comprehensive overview of our health and claims performance. The report includes valuable statistical data that sheds light on the healthcare concerns of our customers. By analysing these insights, we can continuously improve our products and services to better meet the evolving needs of our policyholders. Together, we strive to create a healthier and more secure future for our customers.

一位忠誠客戶與保誠20多年的感人旅程

A touching journey of a loyal customer with Prudential for over 20 years

梁先生是我們公司的忠誠客戶，今年已經68歲了，我們為他提供服務超過20年。起初，他購買了我們的健樂醫療計劃(MBC)。在2022年12月，我們的理財顧問協助梁先生申請將MBC移至保誠靈活自住醫保計劃(VFPR)，以獲得更好的保障。

Mr. Leung, a 68-year-old loyal customer of our company, has been receiving our services for over 20 years. Initially, he purchased our PRUmed better care plan (MBC). In December 2022, our financial consultant assisted Mr. Leung in migrating from MBC to the PRUHealth FlexChoice Medical Plan (VFPR) for better protection.

梁先生對醫療費用直付服務^非常滿意，他感受到了無縫及暢順的客戶體驗和醫療網絡的專業水準。我們的理財顧問還協助他從MBC計劃轉移到VFPR計劃，為他提供更好的保障。我們為能夠服務梁先生超過20年感到自豪，並將繼續為他提供最優質的服務。

Mr. Leung expresses high satisfaction with the seamless medical expense direct billing service^, which has provided him with a smooth customer journey and a sense of professionalism within the medical network. In addition, our financial consultant assisted him in migrating from MBC to VFPR, ensuring he receives enhanced protection.

Having served Mr. Leung for over 20 years, we take pride in our long-standing relationship and are committed to continuing to provide him with the utmost level of service.

在2021年，梁先生被政府醫院診斷出罹患心臟病。他需要等待至少六個月才能在醫院進行電腦掃描檢查。當我們的理財顧問李女士得知梁先生的情況後，她向他解釋了他的醫療計劃可以享用醫療費用直付服務^，並告知他電腦掃描檢查也可以在網絡中心進行，李女士還向梁先生推薦了一位心臟科醫生。梁先生對李女士的專業服務和幫助感到滿意，這次他只需要支付2萬港元的手術費用。

在2023年9月，梁先生再次出現胸痛症狀。他與網絡醫生進行了諮詢，醫生建議他進行電腦掃描檢查以確定是否需要進行另一次手術，並可以申請電腦掃描檢查醫療費用直付服務^。由於梁先生及時進行檢查，了解到目前並不需要進行另一次手術，而電腦掃描檢查的費用亦得到完全的保障。

In 2021, Mr. Leung was diagnosed with heart disease at a government hospital. He was informed that he would have to wait for at least six months to undergo the CT scan at the hospital. Upon learning about Mr. Leung's situation, our financial consultant, Ms. Lee, explained to him that his medical plan offered the benefit of medical expenses direct billing service^. She also informed him that the CT scan could be conducted at a network centres. Additionally, Ms. Lee recommended a cardiologist to Mr. Leung. Satisfied with Ms. Lee's professional service and assistance, Mr. Leung only needed to pay HKD 20,000 for the surgery.

In September 2023, Mr. Leung experienced chest pain symptoms once again. He consulted with a network doctor who suggested a CT scan to determine if another surgery was necessary. The doctor also informed Mr. Leung that he could avail the medical expenses direct billing service^ for his medical expenses. Thanks to the timely examination, Mr. Leung discovered that another surgery was not required at the moment, and the cost of the examination was fully covered.

理賠專員設身處地為客戶解決問題 Claims Specialists Stepping into Our Customers' Shoes

20歲的黃小姐不幸在前往英國參加研討會的途中被診斷出患有顱內出血，並接受了顱骨開顱手術。作為保單持有人，她的母親黃太太提交了相關於腦部手術的危疾理賠申請。然而，根據英國醫生填寫的理賠表格顯示，顱內出血是由一次意外引起的。根據保單的條款和約定，因意外而進行的腦部手術並不在該保單的保障範圍之中。

Miss Wong, a 20-year-old seminar attendee, was unfortunately diagnosed with subarachnoid hemorrhage and underwent craniotomy while in United Kingdom. As the policyholder, her mother, Mrs. Wong, submitted a critical illness claim related to the brain surgery. Based on the claim form filled out by the UK doctor, the subarachnoid hemorrhage was caused by an accident. According to the terms and conditions of the policy, brain surgery performed due to an accident does not fall within the coverage of the insurance policy.

我們的理賠專員並未立即拒絕理賠申請。由於黃太太所描述的出血原因與醫生在理賠表格所述的有出入，所以理賠專員對醫生填寫的情況表示疑慮。為確保對客戶的權益做出公正判斷，我們的專員要求保單持有人提供更多的醫療證明。為了協助客戶取得更多的醫療資料，我們的理賠專員積極與全球緊急支援服務的服務供應商合作，取得與事件相關的醫療文件，證明顱內出血是由中風引起的，而非意外。透過釐清手術原因，理賠案件順利解決，讓客戶獲得應有的理賠金額應付正面臨著的經濟負擔。我們的理賠專員在此過程中提供了額外的協助，使黃太太一家和理財顧問對結果感到非常滿意。

Our claims specialist did not immediately reject the claim but expressed concerns about the discrepancy between Mrs. Wong's description of the bleeding cause and the information provided by the doctor on the claim form. To ensure a fair assessment of the client's rights, our specialist requested additional medical evidence from the policyholder. In order to assist the client in obtaining more medical information, our claims specialist actively collaborated with the service provider of the worldwide emergency assistance service to obtain relevant medical documents confirming that the subarachnoid hemorrhage was caused by a stroke, not an accident. By clarifying the reasons for the surgery, the claims case was successfully resolved, allowing the client to receive the appropriate claim amount to alleviate the financial burden they were facing. Our claims specialist provided additional assistance throughout the process, leaving Mrs. Wong and her family, as well as their financial consultant, highly satisfied with the outcome.

我們的理賠專員對個案進行深入調查，確保所獲得的資料是正確無誤的。這次快速解決的理賠案例證明了我們致力於為客戶提供及時和高效的服務。我們深知處理理賠可能是一段困難而充滿壓力的經歷，因此我們努力使這個過程盡可能順暢和無壓力。

Our claims specialists conduct in-depth investigations of each case to ensure the accuracy and correctness of the obtained information. This speedy settlement is a testament to our commitment to provide prompt and efficient service to our clients. We understand that dealing with claims can be a challenging and overwhelming experience, and we strive to make the process as smooth and hassle-free as possible.
